# Recommended Age Specific Tests

## Ages 18 - 29

Physical Exam	At least every 5 years, or as your doctor recommends.
Eye Exam	Once between ages 20 and 29.
Pap Smear (women)	Once a year for sexually active women.
Cholesterol Test	This one is needed now if you smoke, are obese, or have high blood pressure, diabetes or a family history of heart disease.

## Ages 30 - 39

Physical Exam	Every 3 to 5 years, or as your doctor recommends.
Eye Exam	Once between ages 30 and 39.
Pelvic Exam (women)	Once a year.
Pap Smear (women)	Once a year for sexually active women.
Cholesterol Test	Every 5 years if your last test was normal.

## Ages 40 - 49

Physical Exam	Every 1 or 2 years, or as your doctor recommends.
Eye Exam	Every 2 to 4 years.
Cholesterol Test	Every 5 years if your last test was normal.
Mammogram (women)	Baseline at age 40, then every 1 or 2 years.
Prostate Exam (men)	Age 45 for all African-American men and for white men with a family history of prostate trouble.
Bone Density Test	As you approach menopause (women); all women and men who are at risk for osteoporosis.
Pelvic Exam (women)	Once a year.
Pap Smear (women)	Once a year for sexually active women.

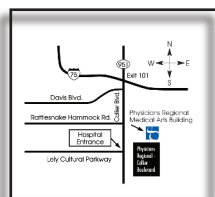

## Ages 50 and Older

Physical Exam	Every 1 or 2 years, or as your doctor recommends.
Cholesterol Test	Every 5 years if your last test was normal.
Mammogram (women)	Once a year.
Pap Smear (women)	Once a year for sexually active women. After age 70, women who have had 3 normal pap smears in a row or no abnormal results in 10 years, no longer need this test.
Rectal Exam	Once a year.
Fecal Occult Blood Test	Once a year.
Sigmoidoscopy	Every 5 years.
Colonoscopy	Every 10 years.
Prostate Exam	Once a year.
Bone Density Test	Women at or approaching menopause, all women over 65, men who are at risk for osteoporosis.
Baseline Audiogram	At age 60.
Skin Cancer Screening	Every 1 to 2 years.
